The URE President's Activity Report 2012 is published

The President of the Energy Regulatory Office (URE) presents its National Report 2012 on regulatory issues.

The Report presents the most important developments on the Polish electricity and gas markets from the regulator's perspective. Readers will find information on both wholesale and retail markets in Poland in 2011. The Report describes regulator's activities in the fields of network regulation, promotion of competition in the energy market, customer rights protection and empowerment, as well as security of supply.
