## DEAR COLLEAGUES:

On behalf of the Energy Regulators Regional Association (ERRA), I would like to invite you to attend the 9th ERRA Energy Investment and Regulation Conference. The conference is to be held on April 19-20, 2010 in Budapest, Hungary at the Hotel Hilton.

ERRA is a voluntary international association of independent energy regulators primarily from the Central European and Eurasian region with affiliates from Asia, the Middle East and the United States.

The ERRA Conference serves as a platform where you will not only hear the latest news on energy but where you can actively exchange ideas with more than 100 energy regulators of the ERRA region. Get actively involved in the discussion about the necessary improvements for the development of energy markets and for energy regulation for electricity, gas and sustainable development of the energy industry.

The conference offers a high level 2 day program including electricity and gas sessions focusing on the CEE, SEE, and CIS regions. The event will gather high level speakers and representatives from the ERRA-member regulators, European institutions, energy industry, international organizations, gas producing countries, consumers and press. The Conference aims to address the following ambitious topics:

- ♦ Investment opportunities and needs in the energy sector and possibilities in the new financial environment;
- ♦ Regulatory aspects of sustainable development of the energy industry;
- ♦ Regulatory issues of importance to energy traders;
- ♦ Natural gas – regulatory aspects.

We truly hope that you will find the topics relevant and that you will sign up for this unique event of ERRA member regulators. The ERRA Secretariat is ready to take special requests to facilitate one-on-one meetings with high-level ERRA member regulators during the conference. We hope to meet you in Budapest!

Dr. Gábor Szörényi  
Chairman  
Energy Regulators Regional Association
