Gas market: The President of the Energy Regulatory Office (URE) has approved an incremental capacity project for the Poland-Ukraine interconnections

The President of the Energy Regulatory Office (URE) reviewed the application of Gas Transmission Operator Gaz-System and [approved incremental capacity project proposals for the Poland-Ukraine interconnections](#) (direction from Poland to Ukraine). The solutions provided for in the document had been consulted with the Ukrainian regulator, the National Energy and Utilities Regulatory Commission of Ukraine (NEURC).

The relevant capacity at the level of 3,095,890 kWh/h/y will be made available to the market as of the 2030/2031 gas year and will be offered in a yearly capacity auction for a period of 15 years.

The details of this and other decisions of the regulator concerning gas interconnections can be found [in a dedicated section of the URE's website](#).
